

# Proposed Right to Addiction Recovery (Scotland) Bill

## Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice which explains how my personal data will be used.

On the previous page we asked you if you are UNDER 12 YEARS old, and you responded Yes to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

*No Response*

## About you

Please choose whether you are responding as an individual or on behalf of an organisation.  
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

*No Response*

Please choose one of the following:

I am content for this response to be published and attributed to me or my organisation

Please provide your Full Name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Christina Scott

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

## **Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

**Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.**

Addiction is the symptom. Until we are willing to be open, inclusive & transparent about trauma, its effects & how & who it affects, provide accessible, immediate support, the longer it takes our society to heal & the life & financial costs continue to soar unnecessarily

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

*No Response*

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Duty on Scottish Ministers

Duty on Health Boards

Duty on Integration Joint Boards (IJB's)

Requirement for the Scottish Government to report progress on duty

Other (For example Local Authorities - please specify below).

**Please explain the reasons for your response.**

It requires to be fully person centric. It needs to be fully accessible as likely to take decades before seeing a shift in healing. There is not a one size fits all solution. It needs to be responsive & fit for purpose. There needs to be clear accountability & work toward continuous improvement.

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Fully supportive

**Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.**

Needs to be directive & actionable, not get lost in a generic system approach.

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Fully supportive

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

Decision making needs to lie in the hands of the individual. They can determine how they feel and what they believe they need at each stage. When you give them ownership of their own recovery, you are giving them back part of the control they have been missing.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Unsure

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

Question doesn't read right to me, require context.

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully supportive

**Please explain the reasons for your response.**

This needs fully supported by scotgov but not only by scotgov.

## Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

some increase in costs

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

You need to ensure a holistic, long term cost analysis. Look at how high costs are with little benefit. Reshape services, accessibility with & by those who know what is needed.

## Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Unsure

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**

Don't know the data on current equality impact in the field. However, a person centric, no barriers approach automatically supports inclusion & equality

## Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

No

**Please explain the reasons for your response.**

No not immediately. Stop trying to tie everything up into neat packages. Addiction is messy, destructive & at times, more than should be due to lack of accessibility and current 'assessment', deadly. Let's be transparent about a no one size fits all approach. That it will still, in early stages, fail many as they needed access years ago. This isn't a silver bullet. It's the underpin of necessary change & it will be messy.

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Listen to what people are asking for. Those on the ground.
