

# Proposed Right to Addiction Recovery (Scotland) Bill

## Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

## **Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill?

Fully opposed

**Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.**

Ordinary constituents do not have benefit of legally guaranteed treatment. Drug / alcohol addiction is self inflicted - or inflicted by GPs as opiate painkillers. Other illnesses are not self inflicted but do not receive

Q1. Which of the following best expresses your view of the proposed Bill?

benefit of legal guarantee of treatment. Operations are cancelled, people removed from waiting lists, people dismissed from clinics when radiographs have been arranged. Treat constituents fairly.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Drug / alcohol deaths need to be addressed, but what about people suffering from problems which are not self inflicted? Do we leave them in pain - and to die?.

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Other (For example Local Authorities - please specify below).

**Please explain the reasons for your response.**

None of the above. As before, problem self inflicted unless addicted by opiates prescribed by GPs.

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Fully supportive

**Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.**

Existing complaints procedure gets you nowhere

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

Do not understand the composition of this question. Please translate to English.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Partially opposed

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

Oppose due to legal requirement which is not open to everyone for all types of illness.

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully opposed

**Please explain the reasons for your response.**

Where does this money come from?

## Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

a significant increase in costs

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

Forget the bill. Taxpayer, council tax payer always suffers and rarely benefits.

## Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Negative

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**

Never mind the above. All constituents should be treated equally and this bill is not doing that

## Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

No

**Please explain the reasons for your response.**  
Does not adhere to a just society.

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Scrap it and think again with common sense.
