

Proposed Right to Addiction Recovery (Scotland) Bill

Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

I believe legislation is required to eliminate the "postcode lottery" which currently exist regarding recovery services.

Duty on Integration Joint Boards (IJB's)

Other (For example Local Authorities - please specify below).

Fully supportive

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Fully supportive

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

Those seeking recovery must be fully integrated in the decision-making it will help a culture of empowerment over dependency. People must be fully engaged for the treatment to be efficient.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Fully supportive

The right to recovery is a right guaranteeing a second chance in life and the integrity of individuals

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully supportive

Please explain the reasons for your response.

It is a national crisis needing a national leadership and response.

Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

no overall change in costs

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

Currently the success of the current policy is very costly. Efficiency may have a starting cost but a successful policy will lower the medium term costs. It is about investing in people.

Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.

Even if addiction is an issue across the whole population, some can have easier access to remedies and support than others (geography, wealth, education...) than others. To have a universal right to recovery would allow all similar chances.

Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes

Please explain the reasons for your response.

The bill will support all these elements but more specifically ensuring a strong, healthy and just society

General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

No Response
