

Proposed Right to Addiction Recovery (Scotland) Bill

Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice which explains how my personal data will be used.

On the previous page we asked you if you are UNDER 12 YEARS old, and you responded Yes to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

No Response

About you

Please choose whether you are responding as an individual or on behalf of an organisation.
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

No Response

Please choose one of the following:

I would like this response to be published anonymously

If you have requested anonymity or asked for your response not to be published, please give a reason (Note: your reason will not be published):

Please provide your Full Name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill?

Partially opposed

Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.

Realise addiction is a big cross generational problem in society today, however, until the people who have

Q1. Which of the following best expresses your view of the proposed Bill?

life threatening illness , and the resulting suffering on themselves and their families , who did not bring it upon themselves due to their own behaviour and bad decision making ,have the best treatment and help readily made available to them firstly. In an IDEAL world ALL would receive the treatment they need- in the REAL world there is NOT ENOUGH FUNDING for this , therefore what is available has to be channelled wisely.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes - promote and educate society , no holds barred , on the reality of the consequences bad decision making re self health , has on your life and others affected by it. GPs should be held accountable and monitored for prescription of addictive drugs from the onset of use and treatment of addiction. They should not be issued as a panacea or stop gap.

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Duty on Scottish Ministers

Duty on Health Boards

Duty on Integration Joint Boards (IJB's)

Established targets/standards

Requirement for the Scottish Government to report progress on duty

Other (For example Local Authorities - please specify below).

Please explain the reasons for your response.

Adequate funding , Inclusion, collusion and support from all of the above plus Doctors and Educators understanding the strategy and the ultimate goal in applying it.

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Fully opposed

Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.

There should be no need for yet another bureaucratic procedure to be introduced. ALL COMPLAINTS raised about NHS , more so than any other business , should be Received, Logged, Acknowledged to the complainer and Initial Investigation and feedback to appropriate persons carried out within a set and monitored time frame.

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Fully supportive

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

In an ideal world , if correct and proven methods of rehab are to be prescribed and used, then surely you need the addict to WANT and accept any treatment option to work. More likely they will commit and succeed if they have say in it.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Partially supportive

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

Only in extreme circumstances , when a next of kin or legal guardian agrees it is in the addict's best interest.

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully opposed

Please explain the reasons for your response.

Until there is sufficient funding available in NHS for people to receive necessary treatment for life threatening illnesses/disabilities.

Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

a significant increase in costs

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

Public sector and individual families.

Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Slightly negative

Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.

Impact on free choice

Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

No

Please explain the reasons for your response.

It could only help to sustain these principles for addicts if everyone else who needs it has funding and access to treatment

General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

No
