

Proposed Right to Addiction Recovery (Scotland) Bill

Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.

We have an endemic use of class A drugs in Scotland and there needs to be real resources employed to help drug addicts recover, and come off drugs being helped to do so on a voluntary basis.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Proposed legislation is required because the Scottish Government have failed comprehensively on this issue.

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Duty on Scottish Ministers

Duty on Health Boards

Duty on Integration Joint Boards (IJB's)

Established targets/standards

Requirement for the Scottish Government to report progress on duty

Other (For example Local Authorities - please specify below).

Please explain the reasons for your response.

This needs all of the Scottish National to be involved if we are to be successful meaning money being spent and a joined up response from all agencies involved.

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Fully supportive

Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.

We have years of record drug deaths. Everyone and every agency has to be responsive to complaints.

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Fully supportive

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

This has to be voluntary and has be person centre to meet the individuals requirements as people have complicated backgrounds that have to be taken into consideration.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Fully supportive

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

This is an attempt to help get people off drugs and back into main stream society as everyone deserves that opportunity

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully supportive

Please explain the reasons for your response.

We are in a drugs crisis and it requires large resources to materially affect outcomes in a positive direction.

Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

some increase in costs

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

The Scottish government has to provide all the resources for drug recovery as is a national emergency.

Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.

Drugs affect everyone and we must help everyone no matter their back ground. A person centred approach to helping people overcome their drug addiction ensures no discrimination can occur.

Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes

Please explain the reasons for your response.

If this bill is seriously backed by everyone it will make a valuable contribution to a healthy and better society for all of our citizens. I believe this bill could leave a positive legacy for the nation of Scotland in seriously reducing drug related deaths.

General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

It has our unconditional support.
