

# Proposed Right to Addiction Recovery (Scotland) Bill

## Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice which explains how my personal data will be used.

If you are under 12 years old and making a submission, we will need to contact you to ask your parent or guardian to confirm to us that they are happy for you to send us your views. Please **ONLY** tick this box if you are **UNDER** 12 years of age.

On the previous page we asked you if you are **UNDER 12 YEARS** old, and you responded **Yes** to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

No, I am over 12 years old and I have read and agree the Privacy Notice

## About you

Please choose whether you are responding as an individual or on behalf of an organisation.  
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

**Optional: You may wish to explain briefly what expertise or experience you have that is relevant to the subject-matter of the consultation:**

My mum helped to write this & know lots of people who have died because they cant get access to good treatment.

Please select the category which best describes your organisation

*No Response*

Please choose one of the following:

I would like this response to be published anonymously

**If you have requested anonymity or asked for your response not to be published, please give a reason (Note: your reason will not be published):**

Please provide your Full Name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

**Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill?

Fully supportive

**Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.**

Ive watch my mum be distresed for a long time trying to help people who are really unwell & who tell us over & over again they need help but cant get it anywhere. Ive also seen my mum go to lots of funerals & be really sad alot in the last few years.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Yes I think the law needs to be changed because even though people are supposed have rights they still cant get help. So I believe if we make it the law we can challenge the systems that at the moment ignore peoples calls for help even when we have the NICE guidlines from the NHS & Orange book - they still get ignored.

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Duty on Scottish Ministers

Duty on Health Boards

Duty on Integration Joint Boards (IJB's)

Established targets/standards

Requirement for the Scottish Government to report progress on duty

**Please explain the reasons for your response.**

Everyone needs to be accountable.

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Fully supportive

**Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.**

NHS monitors itself (self Police) we need someone else to investigate

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Fully supportive

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

Give people every choice & every chance & dont punish them if they fail the first few times - its not our job to decide who get to choose what path its the persons right to choose. It would give them responsibility reather than taking it away from them or handing it over to someone else to blame.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Fully supportive

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

No one can predict who will get well so everyone must be given the chance.

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully supportive

**Please explain the reasons for your response.**

yes money has to be ringfenced for this definately - so it actually gets spent on this !

## Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

some increase in costs

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

Short term it would defo cost more - but we need to invest in people to help them get well & become contributing citizens again. Ive seen lots of people growing up who were drug and alcohol addicts get well and get jobs & have families etc & be really happy. We have to doeverything we can to help give them the chance that so many of us take for granted.

## Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**

This would give ordinary people the chance to get help that normally only rich people could get or access to medication that can help them much faster than it is at the moment

## Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Yes

**Please explain the reasons for your response.**

All of the above would be affected !

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Please don't waste this opportunity ! Please help my mum & her friends to help all the people who need help. Please help.
