

# Proposed Right to Addiction Recovery (Scotland) Bill

## Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (\*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice which explains how my personal data will be used.

On the previous page we asked you if you are UNDER 12 YEARS old, and you responded Yes to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

*No Response*

## About you

Please choose whether you are responding as an individual or on behalf of an organisation.  
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

Member of the public

Please select the category which best describes your organisation

*No Response*

Please choose one of the following:

I would like this response to be published anonymously

**If you have requested anonymity or asked for your response not to be published, please give a reason (Note: your reason will not be published):**

Please provide your Full Name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

**Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").**

Q1. Which of the following best expresses your view of the proposed Bill?

Partially supportive

**Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.**

I personally think more is needed. Complete legalisation of drugs with supply heavily monitored by the

Q1. Which of the following best expresses your view of the proposed Bill?

government. All proceeds used for drug and alcohol education and rehabilitation. This would, in time, reduce drug addiction but far more importantly it would take the control of drugs and the money involved away from criminal gangs and into the public purse.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

When it comes to this type of issue legislation is required. It assists in publicising the changes and it helps close any cracks some people may fall through.

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Duty on Scottish Ministers

Duty on Health Boards

Duty on Integration Joint Boards (IJB's)

Requirement for the Scottish Government to report progress on duty

**Please explain the reasons for your response.**

I do not believe targets in this would be of any significance. People must want to get help before that help will have an effect. Targets may push authorities into trying to rehabilitate addicts that aren't ready to be placed into such a program.

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Fully opposed

**Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.**

There's far too many "specific" procedures in local and national government. The more there is to manage, the more money it costs. I don't want to live in a country that spends almost as much or more on administering programs than it does on programs.

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Fully supportive

**Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.**

A list of available options with details of what each option entails.

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

This could be given in a brochure, something the addict and their support network could all have input into. The start of a journey that gives the addict and their family/friends the feeling of it being the start of something.

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Fully supportive

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Unsure

**Please explain the reasons for your response.**

It really depends where the money comes from. As our budget is completely inflexible and no additional money can be sourced unless we go cap in hand to Westminster I'm concerned that we'll be making Peter suffer to heal Paul.

I also do not want income tax to go up any further to pay for this, in fact I want it brought back in line with the rest of the UK. I already pay almost £4000 a year more in tax than my English counterparts and I'll be even worse off when Westminster's NI rise comes into effect.

## Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

a significant increase in costs

**Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.**

Legalise all drugs, sell via pharmacists 100% under government control. Have a user register, use all proceeds from drug sales to pay for a massive national educational campaign and all rehab and recovery costs. Evidence from other countries shows this type of approach reduces drug use, go a step further than anywhere else and remove the drugs gangs from our streets for good. So many people suffer at their hands, taking over peoples homes, physical violence, gun crime, theft... a high percentage of these crimes are drug related. Removing the criminal element and using the problem to create a long lasting solution instead of a band aid like this type of bill (lets face it, any bill that doesnt sort this out at source will only cover a few cracks)

## Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

**Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.**  
None.

## Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Unsure

## General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Apart from legalise all drugs and sell them via a government run and owned scheme nothing else to add.
