

Proposed Right to Addiction Recovery (Scotland) Bill

Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Health care should be a right and never politicised

It would help if we had legislation but you can't make the people in services be compassionate and understanding

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Requirement for the Scottish Government to report progress on duty

It's no good to throw money at a problem if the money is not spent on the right services
In my experience there is no joined up thinking. Services should all work together

By offering rehab out of the area

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Fully supportive

You wouldn't deny a diabetic insulin, but if an addict turns up late for their Perscription for methadone they are told they can't have said Perscription

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Partially supportive

Please explain the reasons for your response.

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

If people are helped more it would stop crime less people sent to prison less people on benefits

Unsure

You can bring out as many bills as you like if they are not properly implemented they fail just as the 50 years of failed war on drugs has failed generations of young people
