

Proposed Right to Addiction Recovery (Scotland) Bill

Introduction

A proposal for a Bill to enable people addicted to drugs and/or alcohol to access the necessary addiction treatment they require.

The consultation runs from 7 October 2021 to 12 January 2022.

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

[Privacy Notice](#)

I confirm that I have read and understood the Privacy Notice which explains how my personal data will be used.

On the previous page we asked you if you are UNDER 12 YEARS old, and you responded Yes to this question.

If this is the case, we will have to contact your parent or guardian for consent.

If you are under 12 years of age, please put your contact details into the textbox. This can be your email address or phone number. We will then contact you and your parents to receive consent.

Otherwise please confirm that you are or are not under 12 years old.

No Response

About you

Please choose whether you are responding as an individual or on behalf of an organisation.
Note: If you choose "individual" and consent to have the response published, it will appear under your own name. If you choose "on behalf of an organisation" and consent to have the response published, it will be published under the organisation's name.

on behalf of an individual

Which of the following best describes you? (If you are a professional or academic, but not in a subject relevant to the consultation, please choose "Member of the public".)

No Response

Please select the category which best describes your organisation

Please choose one of the following:

I would like this response to be published anonymously

Please provide your Full Name or the name of your organisation. (Note: the name will not be published if you have asked for the response to be anonymous or "not for publication". Otherwise this is the name that will be published with your response).

Please provide details of a way in which we can contact you if there are queries regarding your response. Email is preferred but you can also provide a postal address or phone number.

We will not publish these details.

Aim and Approach - Note: All answers to the questions in this section may be published (unless your response is "not for publication").

Q1. Which of the following best expresses your view of the proposed Bill?

Neutral (neither support nor oppose)

Please explain the reasons for your response. We would welcome comments on any experience you have had of accessing, or trying to access, addiction treatment.

There are too many potential unintended negative consequences

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

I don't think legislation is required

Q3. How do you think the right to treatment established in the Bill would be most effectively implemented and enforced? Tick all options that apply.

Duty on Scottish Ministers

Duty on Health Boards

Duty on Integration Joint Boards (IJB's)

Established targets/standards

Requirement for the Scottish Government to report progress on duty

Other (For example Local Authorities - please specify below).

Please explain the reasons for your response.

All of the above but I don't think this proposed Bill will be effective

Q4. Which of the following best expresses your view of creating a specific complaints procedure, in addition to the existing NHS complaints procedure?

Partially opposed

Please explain the reasons for your response. We would welcome comments on any experience you have had with the existing NHS complaints procedure.

I don't see how an additional complaints procedure adds value. If services came under the remit of the Care Inspectorate or Health Improvement Scotland, as with other health and social care services, there would be more opportunity to engage and improve within a set of quality standards

Q5. Which of the following best expresses your view of allowing those suffering from addiction to choose a preferred treatment option, and for them to receive that option unless deemed harmful by a medical professional?

Partially opposed

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

I support the principle of choice of treatment. The term addiction covers many different behaviours not just substances. The proposal as is would in effect medicalise all treatment options. There aren't enough doctors in services to make all these decisions. Is it any medical professional or the medic responsible for the individual's care?

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Fully opposed

Q6. Which of the following best expresses your view of the proposed Bill seeking to prevent treatment being refused?

Please explain the reasons for your response. We would welcome suggestions about how this could work in practice.

I am concerned we end up with unenforceable and weak legislation and create a bureaucratic system. It would be better to bring drug and alcohol services under the scope of the Care Inspectorate and / or Health Improvement Scotland

Q7. Which of the following best expresses your view of requiring the Scottish Government to establish a national funding scheme?

Fully opposed

Please explain the reasons for your response.

It's not clear how it would work. It's not clear what it is trying to solve. Anything that adds additional steps for people to access support is potentially detrimental

Financial Implications

Q8. Taking into account all those likely to be affected (including public sector bodies, businesses and individuals etc), is the proposed Bill likely to lead to:

a significant increase in costs

Please indicate where you would expect the impact identified to fall (including public sector bodies, businesses and individuals etc). You may also wish to suggest ways in which the aims of the Bill could be delivered more cost-effectively.

I am concerned the Bill will put staff off working in this sector. It would seem to propose to add significant administration and bureaucratic process when resources would be better deployed to developing and supporting services and the work force

Equalities

Q9. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Please explain the reasons for your response. Where any negative impacts are identified, you may also wish to suggest ways in which these could be minimised or avoided.

Unknown

Sustainability

Q10. In terms of assessing the proposed Bill's potential impact on sustainable development, you may wish to consider how it relates to the following principles:

- living within environmental limits
- ensuring a strong, healthy and just society
- achieving a sustainable economy
- promoting effective, participative systems of governance
- ensuring policy is developed on the basis of strong scientific evidence.

With these principles in mind, do you consider that the Bill can be delivered sustainably?

Unsure

Please explain the reasons for your response.

The proposed Bill isn't clear on any of these aspirations

General

Q11. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Time and effort would be better spent supporting services and the workforce. Appropriate use of Care Inspectorate and / or Health Improvement Scotland would be more cost and time effective and bring services into line with other health and social provision.
